## HOW TO USE POSI-POUR

1. **NOTICE:** The posi-pour is designed to pour liquor only and will not pour water, lemon or sugar accurately. Daily washing is highly recommended with cordials.
2. Before using the posi-pour, soak in lukewarm soapy water for ten minutes, then rinse in cold water.
3. To install, wet cork and simply push the posi-pour into the bottle. To remove, twist and pull straight up out of bottle.
4. Use a natural pouring motion. Bring the spout to the lip of the glass and raise the tail of the bottle to a 45° angle. Do not “whip” or “baby” the bottle into pouring position.
